

# LAST CHANCE TO STOP DRILLING FOR GAS IN BURNISTON

Europa Oil and Gas have now submitted plans to drill for gas within metres of houses in Burniston. This could last for 20 years with devastating effects on the villages of Burniston, Cloughton and Scalby through burning flares, drilling noise, light & chemical pollution and over 1000 HGVs passing through these villages and the town of Scarborough.

PLEASE TAKE 5 MIN  
TO OPPOSE THIS PLAN

Use our easy guide overleaf for help and email or write to North Yorkshire Council Planning Control as stated below. There are **ONLY 3 WEEKS** to do this!

## HOW TO OBJECT

Application # **NY/2025/0030 /ENV** | Case Officer: **Amy Taylor**

Email your objection to **planning.control@northyorks.gov.uk** or write a letter to:

**Amy Taylor**  
Planning Department  
North Yorkshire Council, County Hall,

# WHY YOU MIGHT OBJECT

The more individual letters/emails of objection received, the better. **EVERY VIEW COUNTS.**

## POLLUTION

- Deafening drilling. Dust. Light pollution 24/7
- Gas flaring – toxic fumes & horrid smells
- Our water supply maybe at risk
- Adverse impact on mental health

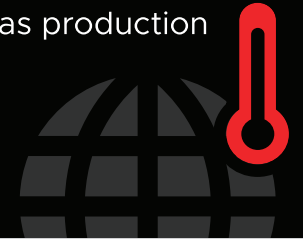

## ROAD SAFETY

Over **1000 HGVs** on our already busy, narrow roads

## CLIMATE CHANGE

- Climate change is at **CRITICAL POINT**
- Burning gas = **more CO<sub>2</sub>** + methane
- Other UK gas sites shut down due to **downstream emissions** (gases)
- **UK is moving to renewable, clean energy**— don't need more gas production

## INDUSTRIAL DEVELOPMENT

- Precious farmland destroyed
- Drill site **very close** to homes & rural village
- Possible **20 years** production of gas + **4 further rigs**

## TOURISM

- Devastating our beautiful countryside, Heritage Coastline & Cleveland Way
- Only **1km** from National Park & close to **weak cliffs**
- **Damage to wildlife, birdlife** + Site of Special Scientific Interest (SSSI)
- Probable **decline in visitor numbers** affecting businesses
- **Local opinion should matter**

## NO CHEAP GAS BILL

as gas is sold internationally

## EARTH TREMORS

Risk of **Earth tremors** caused by drilling over coastal geological faults
